

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of MIDWEST HOLDINGS LIMITED Report on the Audit of the Special Purpose Standalone Financial Statements

Opinion

We have audited the accompanying Special Purpose Standalone Financial Statements of **MIDWEST HOLDINGS LIMITED** (herein after referred to as the "Company"), which comprise the Balance Sheet as at March 31, 2026, Statement of Profit and Loss (including other comprehensive income), and the Statement of Cash Flows for the Year ended, and notes to the Special Purpose Standalone Financial Statements including a summary of material accounting policies and other explanatory information and disclosure (Collectively referred to as the "Special Purpose Standalone Financial Statements", "SPSFS").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid SPSFS is prepared, in all material respects, in accordance with basis set out in note 2.1 to the SPSFS.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the SPSFS' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence and ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 (the "Act") and the Rules made thereunder, and we have fulfilled our other responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the SPSFS.

Emphasis of Matter

We draw attention to Note 2.1 to the SPSFS, which describes the purpose and basis of accounting. The SPSFS have been prepared by the Company solely to assist Midwest Limited for its consolidation purpose, to comply with the requirements under the Companies Act 2013 and for submission of the Annual Performance Report as per RBI Circular. As a result, the SPSFS may not be suitable for another purpose. Our report is intended solely for the use of management and the Board of Directors for the above purpose and should not be distributed to or used by any other parties.

Our opinion is not modified in respect of this matters.

Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note 2.1 to the SPSFS which describes that the financial statements have been prepared in accordance with in conformity with the Indian Accounting Standard prescribed under Section 133 of the Companies Act, 2013 (the "Act") read 2026, Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India of the financial position of the Company as at March 31, 2026 and of its financial performance, its changes in equity and its cash flow for the Year ended. As a result, the SPSFS may not be suitable for another purpose.

We, MAJETI & CO., Chartered Accountants, shall not be liable to the Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Responsibilities of Management and Those charged with Governance for SPSFS

Management is responsible for the preparation and fair presentation of these SPSFS that give a true and fair view of the state of affairs, results of operations and cash flows of the Company, in accordance with the Indian Accounting Standard 34 "Financial Reporting" as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India, and this includes design, implementation, and maintenance of such internal controls as management determines necessary to enable the preparation of SPSFS that are free from material misstatement, whether due to fraud or error.

In preparing the SPSFS, the Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the SPSFS

Our responsibility is to express an opinion on this Special Purpose Financial Information based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India and International Standards on Auditing, to the extent applicable to audits of special purpose financial information. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial information is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special purpose financial information. The procedures selected depend on the

auditor's judgment, including the assessment of the risks of material misstatement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

FOR AND ON BEHALF OF THE BOARD

Ramachandra Kollareddy
Director

Midwest Holdings Limited**Notes annexed to and forming part of the Special Purpose Standalone Financial Statements****Note 1 : Corporate information**

1.1 The company is incorporated on 6th February, 2008 under Section 3(1)(c) of the Companies Act, 2006 of Isle of Man.

The registered office of the company is located at International House, Castle Hill, Victoria Road, Douglas, Isle of Man IM2 4RB. The company is Investment company.

Note 2 : Material Accounting Information

This note provides a list of the material accounting information adopted in the preparation of these standalone financial statements. These information have been consistently applied to all the years presented, unless otherwise stated.

Note 2.1 : Basis of Preparation of standalone financial statements

The Special Purpose Standalone Financial Statements ('standalone financial statements') have been prepared by the Company solely to assist Holding Company (Midwest Limited) for its consolidation purpose and to comply with the requirements under the Companies Act, 2013 ('Act') and for submission of the Annual Performance Report as per RBI Circular.

All the amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest USD and INR.

(i) Compliance with Ind AS

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules as amended from time to time and other relevant provisions of the Act.

(iii) Current and non-current classification

An asset is classified as current if:

- (i) It is expected to be realised or sold or consumed in the Company's normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current if:

- (i) It is expected to be settled in normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be settled within twelve months after the reporting period;
- (iv) It has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non current only.

(iv) Operating Cycle

The operating cycle is the time between acquisition of assets for processing and their realization in cash and cash equivalents. Based on the nature of products and time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Note 2.2 : Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Director has been identified as the Chief Operating Decision Maker. Refer Note 10 for the segment information presented.

Note 2.3 : Use of estimates, assumptions and judgements

The preparation of standalone financial statements in conformity with Ind AS requires management of the Company to make estimates and assumptions and judgements that affect the reported amounts of assets and liabilities and disclosure of contingent assets; liabilities at the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in the current and future periods.

The Company uses the following accounting estimates in the preparation of standalone financial statements:

- Provisions and contingent liabilities.

Note 2.4 : Foreign Currency Transactions**a) Functional and presentation currency**

Items included in the standalone financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). Indian Rupees is the functional currency of the company. The standalone financial statements and all financial information are presented in IISD

Midwest Holdings Limited**Notes annexed to and forming part of the Special Purpose Standalone Financial Statements****b) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss. Non-monetary items that are measured in terms of historical cost in a foreign currency, using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

Note 2.7 : Financial Instruments**Classification, initial recognition and measurement**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognised on the balance sheet when the Company becomes a party to the contractual provisions of the instrument.

(i) Financial Assets**Classification**

The Company classifies its financial assets in the following measurement categories:

- a. Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- b. Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement of Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

At Amortised cost: Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortized cost using the effective interest method less any impairment losses.

At fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

At fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and shortterm deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. On de-recognition of a financial asset the difference between the carrying amount and the consideration received is recognised in the statement of profit and loss.

Midwest Holdings Limited

Notes annexed to and forming part of the Special Purpose Standalone Financial Statements

Note 2.8 : Financial liabilities

Classification, initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts

Subsequent measurement

Financial liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Loans and borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable the some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Derecognition of financial liabilities

The company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. On derecognition of a financial liability the difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

Note 2.9 : Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Note 2.10 : Impairments of assets

Financial Assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). The impairment methodology applied depends on whether there has been a significant increase in credit risk

Expected credit losses are measured through a loss allowance at an amount equal to

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date) or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Non-financial assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability when there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount and impairment loss is recognised in the profit or loss.

Note 2.11 : Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as other finance expense.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

Contingent assets are not recognised but disclosed in the standalone financial statements when an inflow of economic benefits is probable.

Midwest Holdings Limited

Notes annexed to and forming part of the Special Purpose Standalone Financial Statements

Note 2.12 : Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share

For calculating diluted earnings per share, the profit or loss after tax for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Note 2.13 :Recent pronouncements

The Ministry of corporate Affairs ("MCA") notified amendments on 7 May 2025 and 13 August 2025 under the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which is effective from annual reporting periods beginning on or after 1 April 2025.

(a) Amendment to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangement:

The amendments to Ind AS 7 'Statement of Cash Flows' and Ind AS 107 'Financial Instruments:

Disclosures' clarify the characteristics of supplier finance arrangements and require additional disclosures for such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The Company does not have any supplier finance arrangements during the reporting period.

(b) Amendment to Ind AS 1 - Classification of liabilities as current or non-current and non-current liabilities with covenants:

The amendment specifies the requirements for classifying liabilities as current or non-current in the balance sheet, and clarifies the following:

- a) An entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period. The classification of a liability as current or non-current is unaffected by the likelihood that the entity will exercise its right to defer settlement.
- b) If an entity's right to defer settlement of a liability is subject to covenants, such covenants affect whether that right exists at the end of the reporting period only if the entity is required to comply with the covenant on or before the end of the reporting period.
- c) In case of a liability that can be settled, at the option of the counterparty, by the transfer of the entity's own equity instruments, such settlement terms do not affect the classification of the liability as current or non-current only if the option is classified as an equity instrument.

These amendments have no effect on the measurement of any items in the financial statements of the company . The company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

c) Amendment to Ind AS 12 - Pillar-Two Tax Reforms

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdiction in which the Company operates.

d) Amendment to Ind AS 21-Lack of exchangeability

The Amendments introduces requirement to assess when a currency is exchangeable into another currency and when it is not. The amendment requires an entity to estimate the spot exchange rate when it concludes that a currency is not exchangeable into another currency. These amendments had no effect on the financial statements of the Company.

The below amendments are notified but not yet effective

Amendment to Ind AS 1 'Presentation of Financial Statements'- Classification of Liabilities as current or non-current and non-current liabilities with covenants:

The amendment includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, retrospectively, as outlined below:

- (a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period and before approval of financial statements to not demand payment as a consequence of breach.
- (b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.
- (c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Company does not expect this amendment to have an impact on its operations or financial statements.

Total financial liabilities			69,11,244	65,41,78,968

Particulars	As at March 31, 2025			
	Method of valuation	Fair value hierarchy	Amount in USD	Amount in INR
A. Financial assets				
i) Investments	Level 2	Amortised cost	20,593	17,62,378
ii) Other Non-current Financial Asset	Level 2	Amortised cost	1,01,53,547	86,89,54,766
Total financial assets			1,01,74,140	87,07,17,144
B. Financial liabilities				
i) Non-Current Financial Liabilities	Level 2	Amortised cost	63,94,129	54,72,18,486
ii) Current Financial Liabilities	Level 2	Amortised cost	3,06,285	2,62,12,330
iii) Other financial liabilities	Level 2	Amortised cost	2,29,392	1,96,31,659
Total financial liabilities			69,29,806	59,30,62,475

The financial instruments are categorised into three levels based on the inputs used to arrive at fair value measurements as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs based on unobservable market data.

Credit Risk: Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due causing financial loss to the company. It arises from its investment activities, derivative instruments and other financial assets. Company does not carry any material credit risk.

Liquidity Risk: Liquidity risk is the risk that arises from the Company's inability to meet its cash flow commitments. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. Company does not carry any material liquidity risk.

Interest Rate Risk: As the Company does not have exposure to any floating-interest bearing financial assets or liabilities, it is not affected to changes in market interest rates

Foreign currency risk

Foreign exchange exposure mainly arises from Creditor for Expenses denominated in foreign currencies. Consequently, the Company is mainly exposed to foreign exchange risks related to foreign currencies vis-à-vis the functional currencies.

Unhedged foreign currency exposure as at the reporting date:

	As at March 31, 2026		
	GBP	Amount equivalent to USD	Amount equivalent to INR
Trade payables	2,082	2,754	2,60,678

	As at March 31, 2025		
	GBP	Amount equivalent to USD	Amount equivalent to INR
Trade payables	31,234	40,355	34,53,607

Sensitivity analysis for foreign currency risk

Particulars	Impact of profit before tax for the year ended		Impact of Equity, net of tax as at	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
GBP Sensitivity in USD:				
USD/GBP - Increase by	(138)	(2,018)	(138)	(2,018)
USD/GBP - Decrease by	138	2,018	138	2,018
GBP Sensitivity in INR:				
INR/GBP - Increase by	(13,034)	(1,72,680)	(13,034)	(1,72,680)
INR/GBP - Decrease by	13,034	1,72,680	13,034	1,72,680

The above sensitivity analysis is based on a reasonably possible change in the underlying foreign currency against the respective USD while assuming all other variables to be constant.

Midwest Holdings Limited**Notes annexed to and forming part of the Special Purpose Standalone Financial Statements****Note 14: Segment Information****(a) Description of segments and principal activities**

The Director has been identified as the Chief Operating Decision Maker (CODM). Operating segments are defined as components of an enterprise for which discrete financial information is available. This is evaluated regularly by the CODM, in deciding how to allocate resources and assessing the Company's performance. The Company is engaged in activity of Holding companies.
